

QL1 to Infinite Bridge Voting Guide

A step-by-step guide for bridging, proposing,
and sustaining a channel

System Sequence

1. — Introduction: The Big Picture
2. — Proposal: Initiating a Channel
3. — Preparation: Acquiring Network Assets
4. — Voting Power: Sustaining the Bridge
5. — Conclusion: Security Protocols

The Big Picture: System Architecture

<https://hub.infinite-drive.xyz/channels/propose>

Propose a Channel

Interconnection Hub -> QL1 Bridge
-> Propose a Channel

Strategic Advantage: No TOWEL is required to create a proposal. Anyone in the community can initiate the process.

<https://bridge.zaphod.one>

Bridge Assets to Infinite Drive.

Initiate Zaphod Bridge.

1. Connect wallet.
2. Select source chain (e.g., Ethereum).
3. Bridge USDT to the Infinite Drive network.

System Note: After bridging here, proceed to the swap page (Nutri-Matic Swap) explained on the next slide.

The image shows a digital interface for the Zaphod Bridge. It features a dark background with glowing blue and red circuit-like patterns. A large, glowing red arrow starts from the 'FROM' section, points down to the 'AMOUNT' section, and then points up to the 'TO' section, illustrating the bridging process. The 'FROM' section is labeled 'FROM' and contains the Ethereum logo and the text 'Ethereum'. The 'TO' section is labeled 'TO' and contains the Infinite Drive logo and the text 'Infinite Drive'. The 'AMOUNT' section is labeled 'AMOUNT' and contains the USDT logo and the text 'USDT'.

FROM	TO
 Ethereum	 Infinite Drive
AMOUNT	
 USDT	

<https://dontpanic.finance/#/swap?poolId=42-usdt>

Acquire Asset '42'.

Nutri-Matic Swap

1. Navigate to Nutri-Matic Swap on DON'T PANIC.
2. Trade bridged USDT for 42.

System Note: 42 is a critical governance token required for the upcoming voting phase.

From

 USDT

To

4242

Connect wallet

Stake 42 for TOWEL.

TOWEL functions as your voting power. By staking 42, TOWEL will be distributed to you. Initially, TOWEL and 42 will have a 1:1 ratio, but as TOWEL gains value from rewards accrued by the protocol, the price of TOWEL will increase in the future.

[!] System Notice: Please wait until the staking program becomes active.

Vote and Sustain the Bridge

A proposal alone does not activate the channel. To activate the bridge, 5,000 TOWEL must be collectively locked. If locked TOWEL falls below 5,000, there is a risk of closure. It must be continuously sustained by the community.

[Security Protocols]

Verify all network access points. Beware of phishing operations. Use only official channels.
